

Cordis Briefing February 2024

Adult Social Care Expenditure Data 2022/23

Julian Beach

Introduction

- This is our annual look at local authority financing of adult social care, based on the ASC-FR data published in October 2023.
- Later on in the briefing, we will look at the figures that have come out of the Fair Cost of Care exercises undertaken by all local authorities up to October last year, and published at the beginning of March.
- In the data, Hackney, Swindon, Tower Hamlets and Hillingdon were missing at least some data.

Highlights for 2022-23

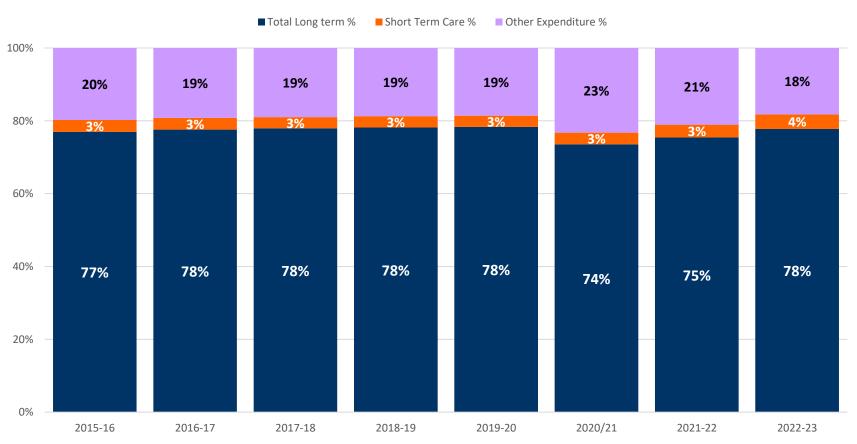

- The gross expenditure on adult social care was £23.7 billion, an increase of £1.7 billion, which is an 8% increase in cash terms compared to a CPI rate of 10% in the year to March 2023.
- The data are split between Short Term and Long Term care. Short term care (referred to as Short Term Care to Maximise Independence ST-MAX) is designed for a time-limited period, with the aim of reducing or removing the client's need for ongoing care. Long term care has no fixed time period and is delivered for as long as required.
- Long term care expenditure increased by 11%, compared to an increase of 24% in short term care. There was a reduction of 7% in other ASC expenditure.
- Long term care accounted for 95.1% of direct care expenditure, an decrease of 0.5% from 95.6% last year.

Highlights for 2022-23

- 835,335 clients were supported in Long Term Care during 2022/23, an increase of 2.1% from 2021/22.
- The number of requests for support increased to 2 million, or 1.2%, the first time there has been an increase in people receiving long term support for some years.

Split between residential care (with and without nursng) and community care

Long Term Care Cost Change (ages 18-64)

• By client group and support type, the change in costs for long term care (18-64) between 2021/22 and 2022/23 is as follows:

	Nursing	Residential	Supported Accom.	Direct Payments	Home Care		Other Long Term Care
Physical Support	8%	4%	12%	7%	14%	13%	6%
Sensory Support	3%	3%	-12%	-1%	5%	-10%	11%
Support with Memory & Cognition	22%	23%	18%	-3%	2%	11%	-36%
Learning Disability Support	-1%	5%	27%	8%	5%	12%	14%
Mental Health Support	10%	13%	14%	15%	10%	31%	11%

Long Term Care Cost Change (age 65+)

 The overall change in Long Term Care Costs between 2021/22 and 2022/23 is made up of the following changes

	Nursing	Residential	Supported Accom.	Direct Payments		SIINNATTAA	Other Long-Term Care
Physical Support	13%	12%	11%	7%	10%	1%	37%
Sensory Support	-8%	-2%	7%	-32%	-5%	3%	-47%
Support with Memory & Cognition	16%	14%	54%	6%	10%	36%	23%
Learning Disability Support	23%	8%	23%	30%	21%	12%	27%
Mental Health Support	14%	10%	0%	6%	2%	27%	2%

Unit Costs – Residential Care

 Unit costs are based on the total costs divided by the number of people and don't necessarily relate to actual fees:

		Physical Support	Sensory Support	Support with Memory and Cognition	Learning Disability Support	Mental Health Support
18-64	2020/21	£1,111	£1,231	£941	£1,726	£1,056
	2022/23	£1,225	£1,420	£1,056	£1,856	£1,122
	Change %	10%	15%	12%	8%	6%
	2020/21	£730	£742	£720	£1,155	£697
65+	2022/23	£791	£790	£785	£1,252	£753
	Change %	8%	7%	9%	8%	8%

Unit Costs – Nursing Care

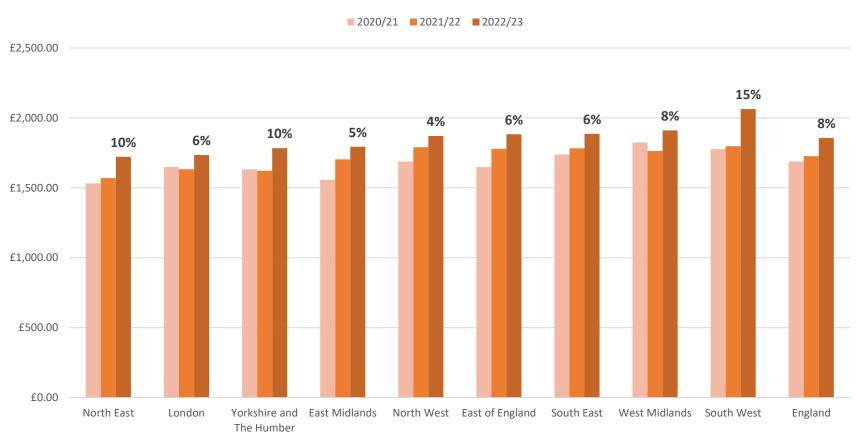

• The costs of learning disability support in nursing homes continues to increase:

		Physical Support	Sensory Support	Support with Memory and Cognition	Learning Disability Support	Mental Health Support
	2020/21	£1,022	£1,054	£1,067	£1,568	£1,116
18-64	2022/23	£1,153	£1,297	£1,210	£1,656	£1,237
	Change %	13%	23%	13%	6%	11%
	2020/21	£805	£818	£836	£792	£788
65+	2022/23	£901	£858	£922	£1,059	£918
	Change %	12%	5%	10%	34%	17%

Conclusions

- The unit cost of delivering adult social care continues to increase at a faster pace than the number of clients, a trend that local authorities are going to have to reverse if they are to address their financial issues, which Josh discusses later.
- The shift of finance from care homes to community-based support is continuing, and the number of care homes and care home beds continues to fall, which we will look at in a future briefing.
- Learning disability services continue to dominate adult social care funding. The shift away from care home support has not halted the increase in costs.
- There continue to be significant regional and local authority variances, suggesting that some areas are able to tackle cost issues. Will the financial pressure facing local authorities lead to a greater focus on cost savings?
